### Always expect the unexpected....

Lot number 432 from our recent Creative Works of Art & Interiors auction on Tuesday 2nd Feb certainly stole the show. Nick and his team did a fantastic job putting the auction together. A Chinese Huanghuali horseshoe-back folding arm chair was part of a lot from a private vendor who was recommended to us. They were merely having a clear out. The item went under the hammer for **£13,500 plus BP.**

Thomas captured the moment live, he said " it was literally breath taking"...watch Neil uncover the action in our video below.

So, if you're rummaging through your loft, attic or garage be sure to get in touch, you never know what it could fetch in auction.

We have some really interesting auctions coming up which are featured below. Until then stay safe and we will see you online soon!

A number of records in the Vinyl section are from the personal collection of Judy Dyble who very sadly passed away last year. Judy was the original singer with Fairport Convention and went on to form the band Trader Horne. Her collection reflects an eclectic mix of genres from Folk, Psychedelic and Progressive Rock to Jazz and World Music.

Judy continued to make music throughout her life, returning to the Cropredy Festival on a number of occasions and recording with various artists. She will be much missed by Family, Friends and Fans
